

Third Round With Karen Hudes

It seems that the idea that the "Board" needs to answer the questions posed to her was rather alarming to Karen. As it should be. See her flight into Admiralty jurisdiction below:

Dear Anna von Reitz,

Reply of the board? This is what I said and this is what I meant:

Let me try and communicate to you what I said in my last email, and what I shall do with each successive email that you send to me. I do not think it is a good use of my time to interact directly with you because you misconstrue my plain language and twist it.

Good bye.

Sincerely,

Karen Hudes

Acting General Counsel

International Bank for Reconstruction and Development

Ovverseer Mandate Trustee

Global Debt Facility, TVM-LSM-666

Correction, I believe---- "taken on board" is a nautical term, Karen, appropriate to Admiralty and Maritime law, which is what you practice after leaving "equity" behind. If you think I am one bit slow in this arena, think again.

It won't do any good to try to obscure the "pillar v. post" conundrum you are offering here. We know the difference between the "Public Charitable Trust" and the "US Trust" and the "United States of America Trust" and so on.

We also know the difference between the "Global Collateral Accounts" and the "Global Debt Facility" and any number of other permutations the banks may try to run. You must remember that the truth is always simple. It's the lies that are complex.

You have proclaimed that you are a "Trustee" and said so before the whole wide world. You have said the same about the other 188 members presiding over distribution of the Global Debt Facility funds.

You have stated on numerous occasions that the gold in the Global Debt Facility is to be used to benefit the people of this planet.

The only way you can hope to escape returning the assets to the Americans that are owed to the Americans is by pretending that they are not "people"-----and that is in fact what the banks have been doing for decades, pretending that we are the willing "co-beneficiaries" and "co-trustees" of the Public Charitable Trust --- a welfare trust set up for impoverished former slaves after the Civil War instead of "free sovereign and independent people of the United States" owed the full value plus interest of our "borrowed" national trust assets, plus all the gold confiscated by King Rat Roosevelt, plus interest on that, too.

Admit it, Karen, you are trying to finesse yet another "New Deal" for your bosses, in which we are hoodwinked into accepting a bowl of porridge for our birthright---- a deal in which your bosses gain immunity AND release of all claim against them for the vast bulk of the debt they owe the American people, by doing what? Handing a portion of what we are owed to bank franchise employees on the pretense that they have authority to accept "in our behalf"?
Hahahahahahahah!

This is my Notice back to you, Ms. Hudes, that if you even attempt any such silly duplicitous scam against the American people----any more claim that we are acting in any capacity related to the Public Charitable Trust whatsoever, any claim that our "whereabouts" are unknown, any claim that we have "abandoned" our names, our land, our credit, our homes-----or our gold-----and we will have your gig line up the yardarm.

You and the World Bank and your Buddies in "Congress" will all be facing gibbets.
